

// MARINE

// 206AL

Marine sanitary hose 7 bar (100 psi)

Tube: black synthetic rubber.

Reinforcement: high tensile textile cords with embedded steel helix wire.

Cover: white EPDM - abrasion and ozone resistant.

Application: sanitary hose for marine installations. Designed for excellent kink resistance at tight bend radius and maximum flexibility.

Constant operation: -30 °C +80 °C (-22 °F +176 °F)
